

UPGRADE YOUR TRUCKALIGNER I

The Truckaligner I system will no longer be serviced

For this reason, we have a very lucrative upgrade offer.

When scrapping the electronic parts of your old Truckaligner I, we will grant you a special net discount of **EUR 1,000** on the bottom line, no matter which upgrade alternative you select.

We just need a photo proof of your destroyed electronic parts sent to us, after arrival of your new equipment.

The offer is valid until the end of 2017.

See the upgrade alternatives on page 2 and fill in the form below

I would like the following kit:

☐ JOSAM cam-aligner upgrade ☐ JOSAM cam-aligner complete ☐ JOSAM i-track complete

Company: _____ Signature: _____

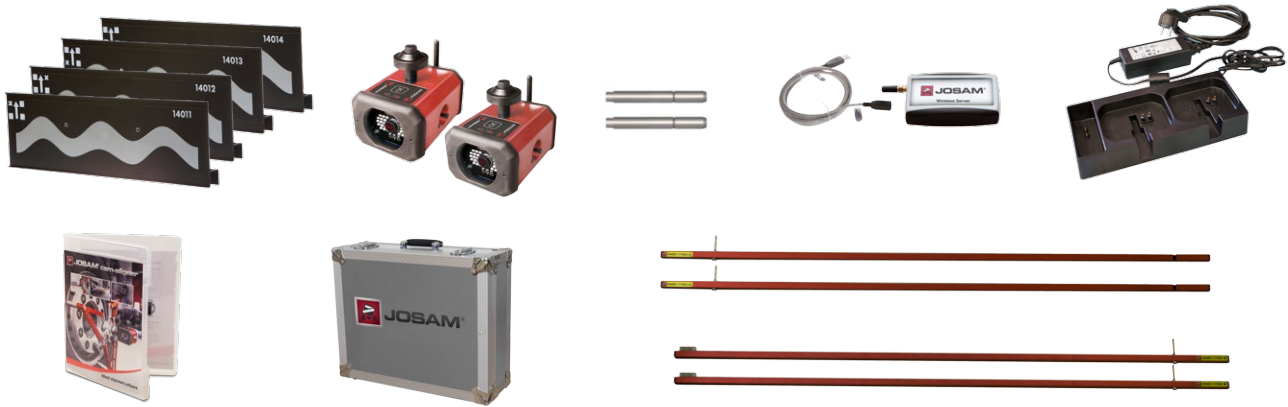

Upon signing this, I commit myself to destroying my old JOSAM truckaligner I system after receiving the new wheel alignment equipment. A photo of the scrapped electronic parts will be e-mailed afterwards.

JOSAM®

JOSAM cam-aligner upgrade kit

CA 2012 K/74321

Keep your existing wheel adapters, self-centering frame gauges, non-friction plates and equipment storage. With this kit you receive an upgrade to our top modern camera-based system with a brand new software.

JOSAM cam-aligner complete kit

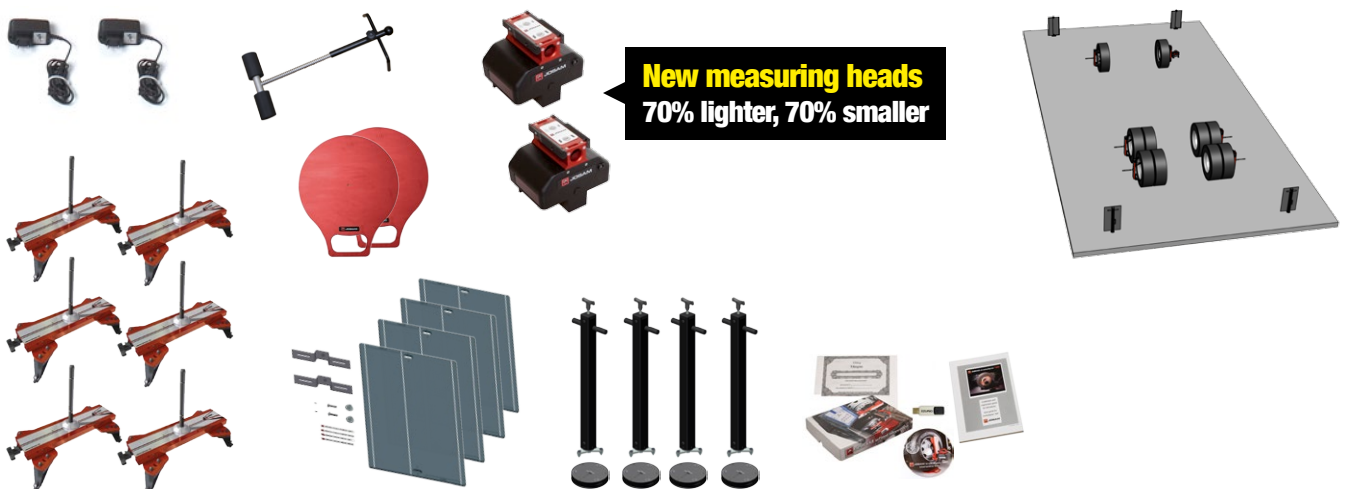

CA 2014 K/74322

Replace your Truckaligner equipment with a complete camera-based system. It includes an entirely new software, trailer adapter, steering wheel holder and the latest generation of frame gauges, wheel adapters and non-friction plates.

JOSAM i-track complete kit

JT-FIXED KII/15915

A complete JOSAM i-track, the fastest diagnostic system on the market. Set up a fixed workplace dedicated to wheel alignment in high volumes. The target scales are mounted in the floor and can easily be removed when not in use.

Note: Installation, PC hardware and equipment storage are to be added.
